

THE ROUND UP

Where HHCA News Gets Penned

Volume 22, Issue 3

March 1, 2019

Welcome New Committee Members!

The Board would like to welcome several new committee members and introduce you to our new Technology committee.

Architectural Committee:

Due to the new term limits rule in the Bylaws, Shawn Antin and Ron Wolfe termed out of the Architectural Committee, and new members Tom Lewis and Stephen Phillips were appointed. They join existing chairman Mike Kotal.

Gate Operations Committee:

New committee members John Boulianne, Mike Resnick and Carolyn Okazaki join existing members Jeffrey Korchek (chair), Barbara Lipkin, Kim Gagnier and Bob Payne.

Equestrian Services Committee:

New member Allison Tashnek joins, Debbie Kulik, Linda Raznick and Keith Christian. Sadly, long-time chairman Eric Toeg (since 2005) has just resigned, as has Julie Sullivan (2002) and Curt Miles (2009). They will be sorely missed. Anyone wishing to fill the vacancies should contact shannon@hiddenhills.org.

Technology Committee:

The Board added a new committee to help deal with issues such as the new perimeter camera initiative, wifi, cell service and other technological matters that come up from time to time. Members include Jack Goldman (chair), Eric Epstein, Bryan Campbell, Bret Katz, Laura McCorkindale and Robert Rose.

Welcome, everyone, and thank you for serving your community!

Woolsey Fire Follow-Up

Many horse owners were unprepared for the mandatory evacuation ordered during the Woolsey Fire. As we know, fires are a known occurrence in this area and we would like to help everyone prepare for them. Accordingly, the Equestrian Services Committee is holding a Large Animal Evacuation Clinic on **March 31 at 10:30 a.m.** at the Spring Valley Arena. We urge every horse (or other large animal) owner to attend. If you have borders and/or trainers, please bring them as well.

Speaking for the trees...

You may have noticed a large number of parkway trees being removed these past few months. Following a number of random tree failures, including several that caused property damage, the Association hired an arborist to evaluate each individual tree – nearly 3000 of them! The arborist, Evin Lambert from Monarch Environmental, has compiled a list of trees that need to be removed now, with additional trees that should be removed next fiscal year. Those removals will start on March 11. The residents near the targeted trees are being notified.

Why do so many trees need to be removed? A number of factors are at play: a long history of drought in California; pest infestations; improper pruning techniques in the past; and weather conditions like heavy rain and wind.

When will the trees be replaced? The Board will be taking that into consideration. The arborists and others in the landscaping field are recommending against planting California Pepper trees in community parkways. More detailed information about that recommendation will appear in next month's newsletter. In the meantime, the Board is looking at alternate species. If you're interested in the types of trees being considered, please contact Shannon at shannon@hiddenhills.org and she will send you a list of links so you can research and weigh in.

Update on Perimeter Camera Initiative

As you all aware, there has been a drastic uptick in burglaries in southern California. This crime spree has hit neighborhoods like ours all over the southland. And, it turns out, the same thing is happening in the UK. <https://www.theweek.co.uk/96083/chilean-tourist-burglars-ransacking-uk-homes> The same m.o. is being used: the burglars target affluent homes bordering open spaces - parks, golf courses, etc., when it appears the resident is not home. They go straight for locations where most people keep their valuables: master bedrooms. They're in and out quickly, carrying whatever fits in their backpacks.

The City has been doing its part to help, hiring extra Sheriffs patrols, holding town meetings and publishing articles about ways you can protect your homes. And while the Association does not provide "public safety," it has been hard at work figuring out how to protect the common areas from trespass, because all burglars are trespassers first. We have added additional investigative Covered 6 officers on the trails at night, and these officers actually caught one of the burglars last week! But they can't be everywhere at once, so we need eyes in more locations. Accordingly, following advice from Covered 6, the Association has embarked upon a program to install cameras in key locations along the perimeter of the community. Since there is poor connectivity in the community, the Association will partner with the residents in the key locations to obtain power and internet access for the cameras. We are eager to get this system into place, and hope to start installing in the next day or so.

If you have questions about this program, please do not hesitate to contact the office or Covered 6.

THRUSH

Thrush is an infection in the surface tissues of the frog and other soft tissues of the foot. With our wetter season approaching, your horses feet may be even more susceptible to getting a case of thrush if they are standing in wet, soiled or muddy conditions.

Causes:

Constant contact with wet, dirty footing with high populations of anaerobic pathogens, including fungi, yeasts and bacteria

Diagnosis:

Observation of a distinctive strong odor (rotting tissue) usually combined with black, slimy material usually in the deeper grooves on and around the frog of horses foot.

Treatment:

Most horse owners can manage a mild case of thrush without veterinary assistance. First, call the farrier to trim away any dead ragged tissue. Next, choose one of the dozens of commercial products with different active ingredients are available as topical treatments for use against thrush. If one doesn't cure the effects, try switching to another.

Meanwhile, make any management changes necessary to keep your horse's feet clean and dry. This includes dry bedding, daily mucking, regular exercise and changing turnout locations.

Take good care of those feet so these problems do not develop into more severe ones!

Happy riding...

UNDERGROUND

ONE-MAN SHOW

WRITTEN & PERFORMED BY:

STEVE SPIRO

START cofounder, actor, screenwriter

DIRECTED BY: Ann Bronston

UK UNDERDOG is based on true events in a London, Jewish boy's life. Bullied and humiliated at school, Steve Spiro realizes his strength to move forward; but that ultimately comes at a price. Told with humor and plenty of chutzpah, Steve reveals how the struggles of our past can be a gift to the future and that . . . no matter what . . . never give up!

Everyone can benefit and anyone can accomplish BODYPUMP

Using light weights to exhaust your muscles, you control how much weight you use throughout the class. During a BODYPUMP workout you'll raise your heart rate and increase calorie burn, but more importantly you'll strengthen, shape and tone your entire body.

It's the building of lean muscle mass that provides the long-term benefits. By building lean muscle mass you increase your body's ability to effectively burn calories in the long term as the extra muscle will raise your metabolism. Try this awesome workout at the Hidden Hills Community Center.

Tennis Practice Partner Needed

Young, aspiring, tournament tennis player (12-16 years of age) is looking for practice partners in the community. We have a court. He is a lefty and is desirous of drilling and playing practice matches with serious juniors in the area. Please call Greg at (650) 388-0330 and email at greg@gregmckeown.com.

Global Warming Alert! (Or Not)

While we all may not agree on the source of global warming, one thing that is clear is that Hidden Hills is getting lots of rain. That means lots of grass and brush growth and an exceptionally busy year for our fun loving and very hungry goats and sheep. Don't miss your chance to reserve a time slot for our all natural brush clearance before it's too late! Also, our goats are spoiled and 9 out of 10 surveyed prefer Hidden Hills grass over Calabasas grass. Go figure! Call Hire-a Herd at (310) 455-0755.
